Version Identification

| Version	Date	Description	Author
1	07/30/2020	Installer for T1DMS version 3.2.1.	K. Bowden

UVa/Padova
T1DMS
Type 1 Diabetes Metabolic Simulator

Installation Guide v3.2

Please follow the instructions below to install the UVa/Padova T1DM Simulator v3.2:
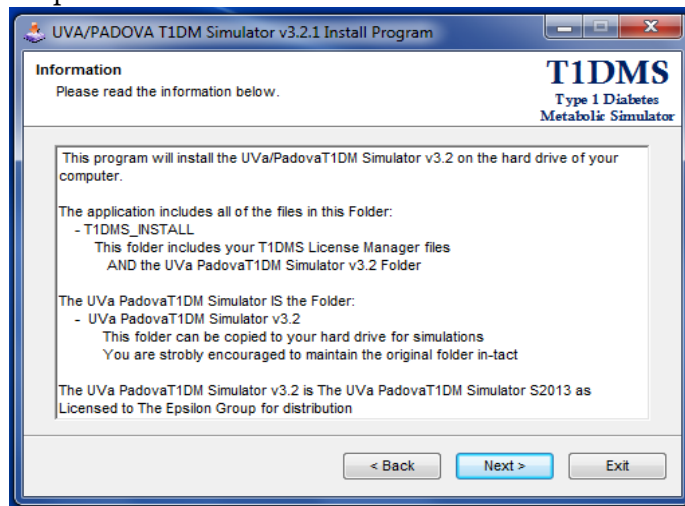

1. Make sure that you exit all other applications before installation

2. Check with your IT Personnel to make sure you can install software on your hard drive.

3. Double-click on the installer **UVa_Padova_T1DM_Simulator_Setup_v3.2.exe**:

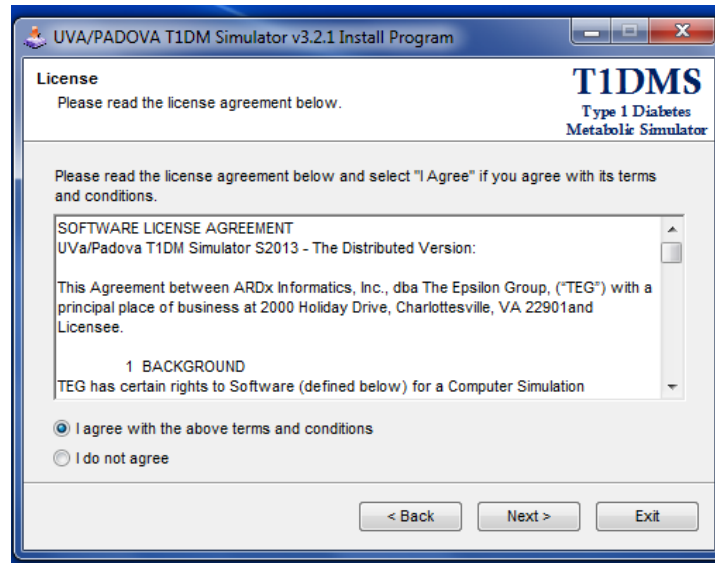

4. Click **Next** if you wish to install T1DMS:
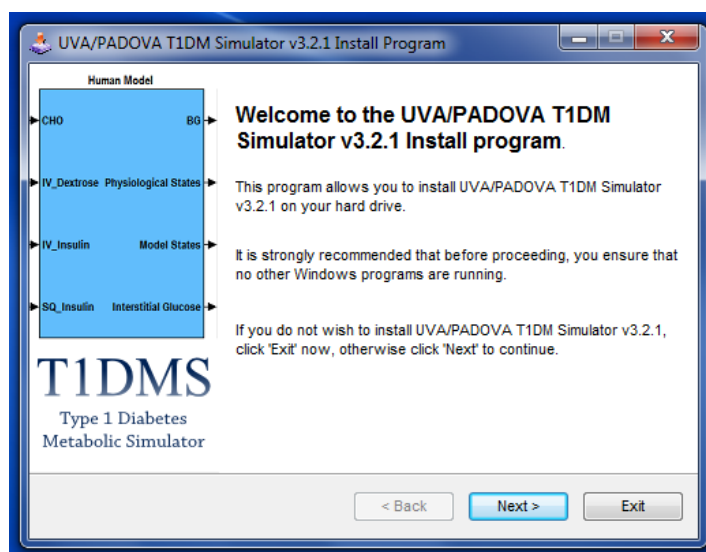

5. Click **Next** to confirm and proceed with installation:
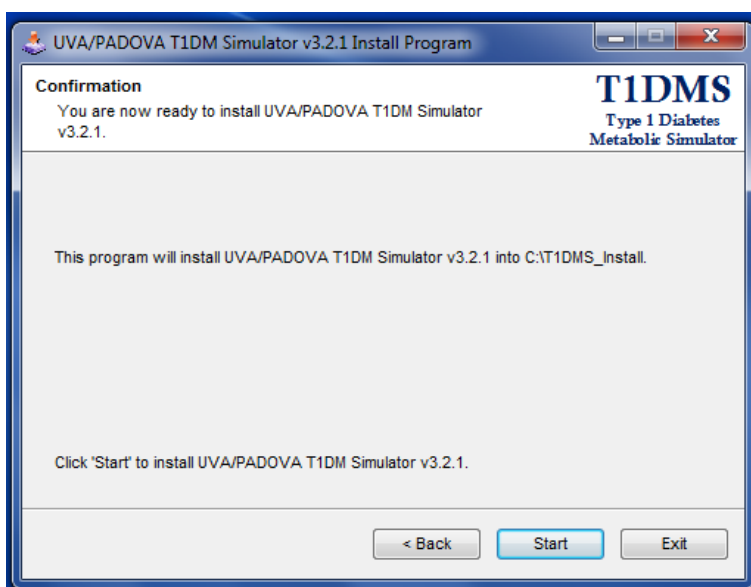

6. Please read the terms and conditions, then select **I agree with the above terms and conditions** then click **Next** to proceed:

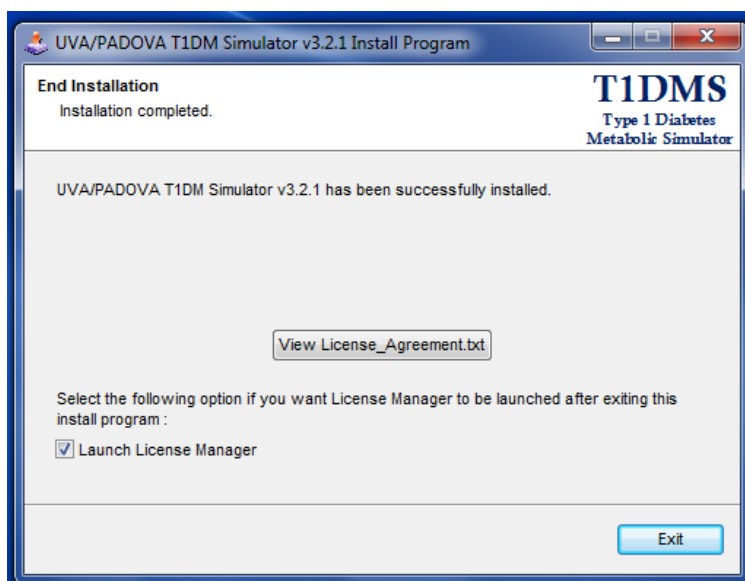

7. Enter the name of the installation folder on your hard drive then click **Next**:

8. You are now ready to install UVA/PADOVA T1DM Simulator v3.2.1. Click Start:

9. Click **Exit** to finish the installation and launch the License Manager to activate your software:

Please follow the instructions below to activate the T1DMS software:

10. **This is** the License Manager Screen to activate your software:

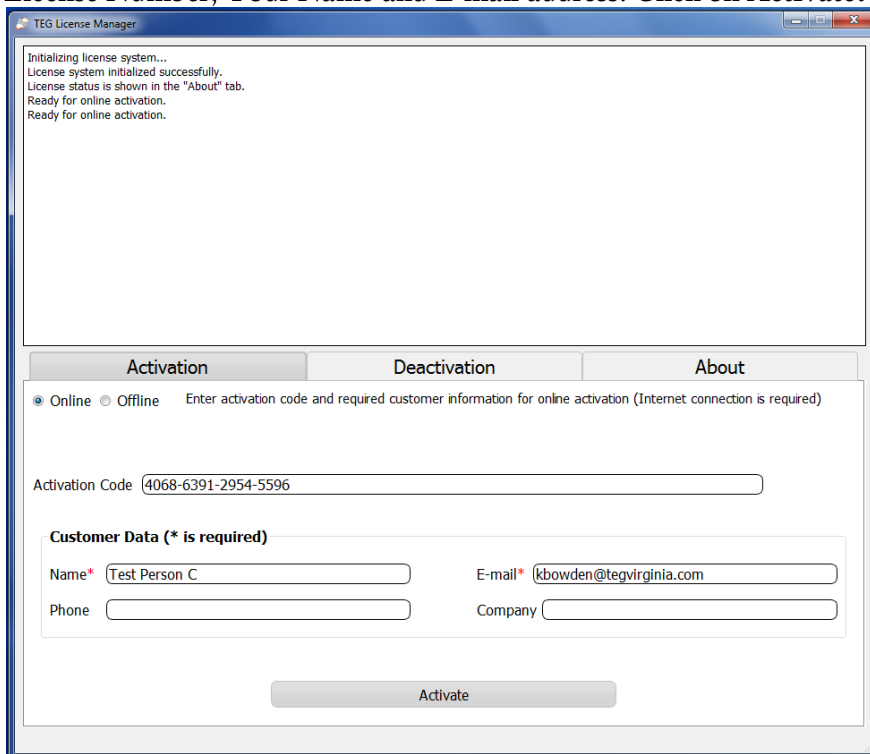

Note: If your computer does not have access to the internet, you will need to use the offline activation process. If this applies to you, please contact The Epsilon Group (info@tegvirginia.com) for assistance.

11. Enter the 16-digit License Number, Your Name and E-mail address. Click on **Activate:**
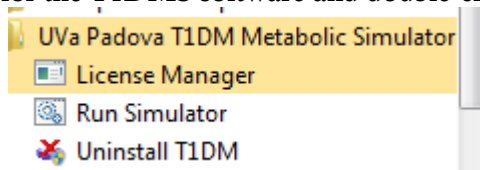

12. Your license is now activated. This screen will notify you (at the top) of the activation.

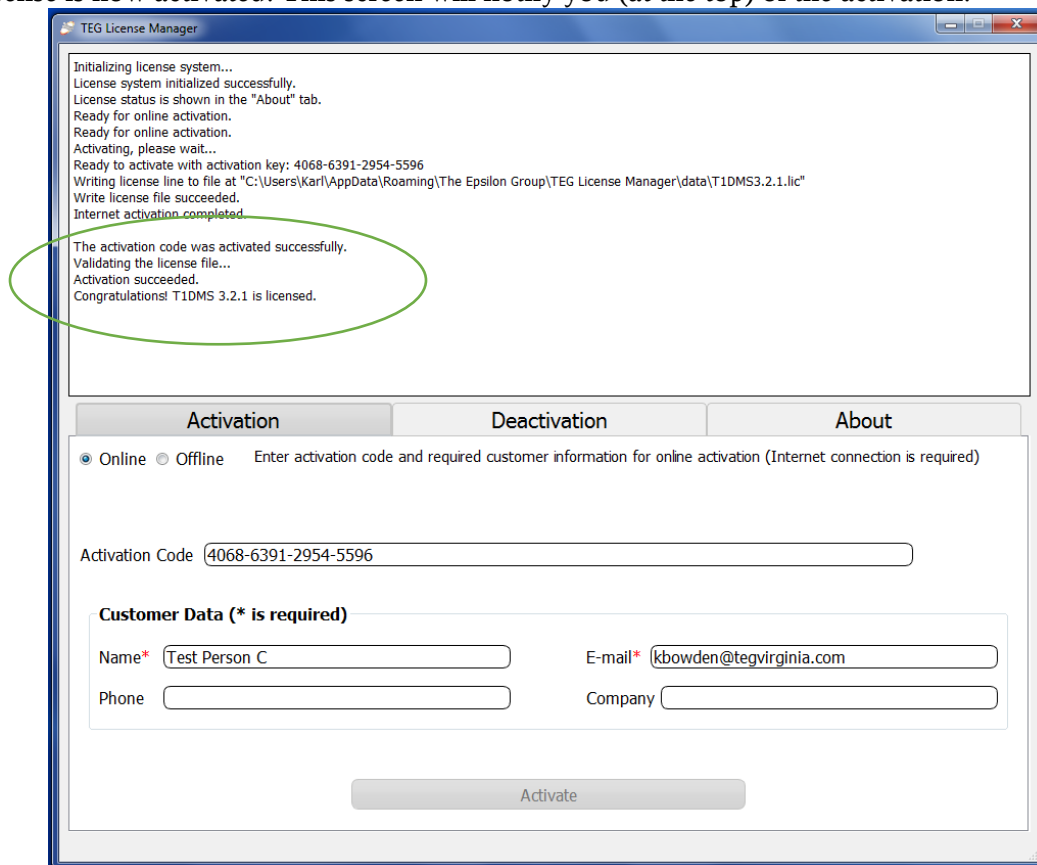

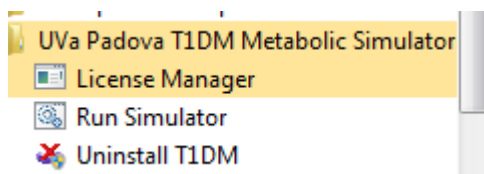

13. Go to your Program Files Folder for the T1DMS software and double-click on Run Simulator:

Please follow the instructions below to de-activate your license:

You can de-activate your T1DMS license at any time. This action returns your license to the server for storage and re-use, allowing you to quickly and easily move the license to another machine. Once de-activated, the T1DMS software will no longer be available until you (1) re-activate it on the same machine, or (2) install the T1DMS software on a new machine and activate it on that machine.   This deactivation/activation process allows you to de-activate and activate between two computers easily:
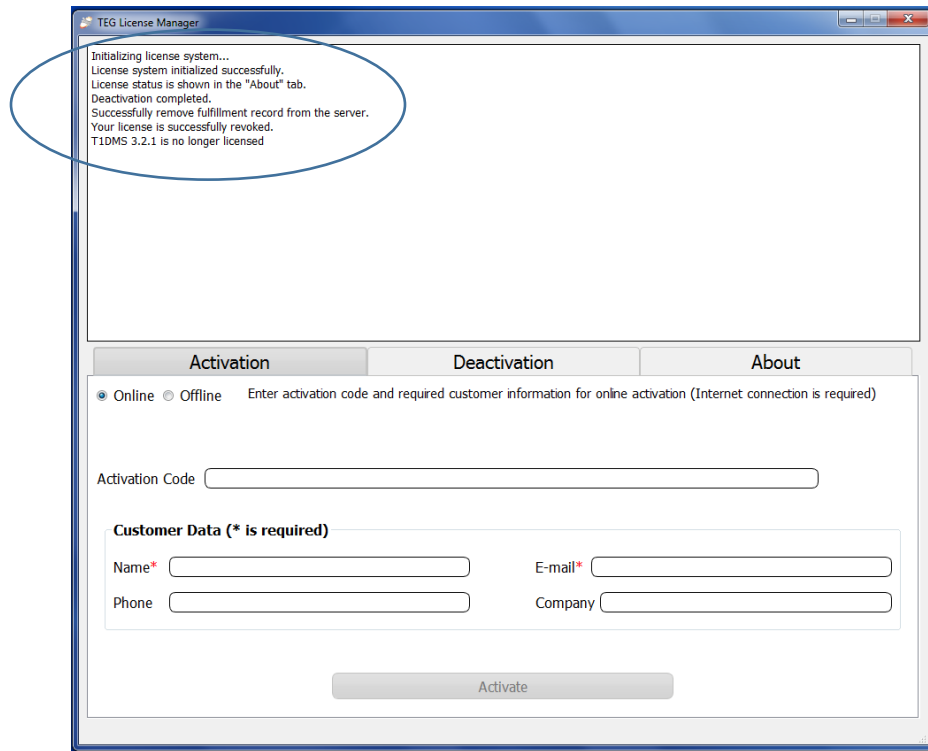

1. Go to your Program Files Folder for the T1DMS software and double-click on **License Manager:**

2. Once the License Manager window opens, click on **De-activation** in the Menu Bar:

3. Your License has now been **de-activated ("revoked" as shown in messages at top of screen)**:
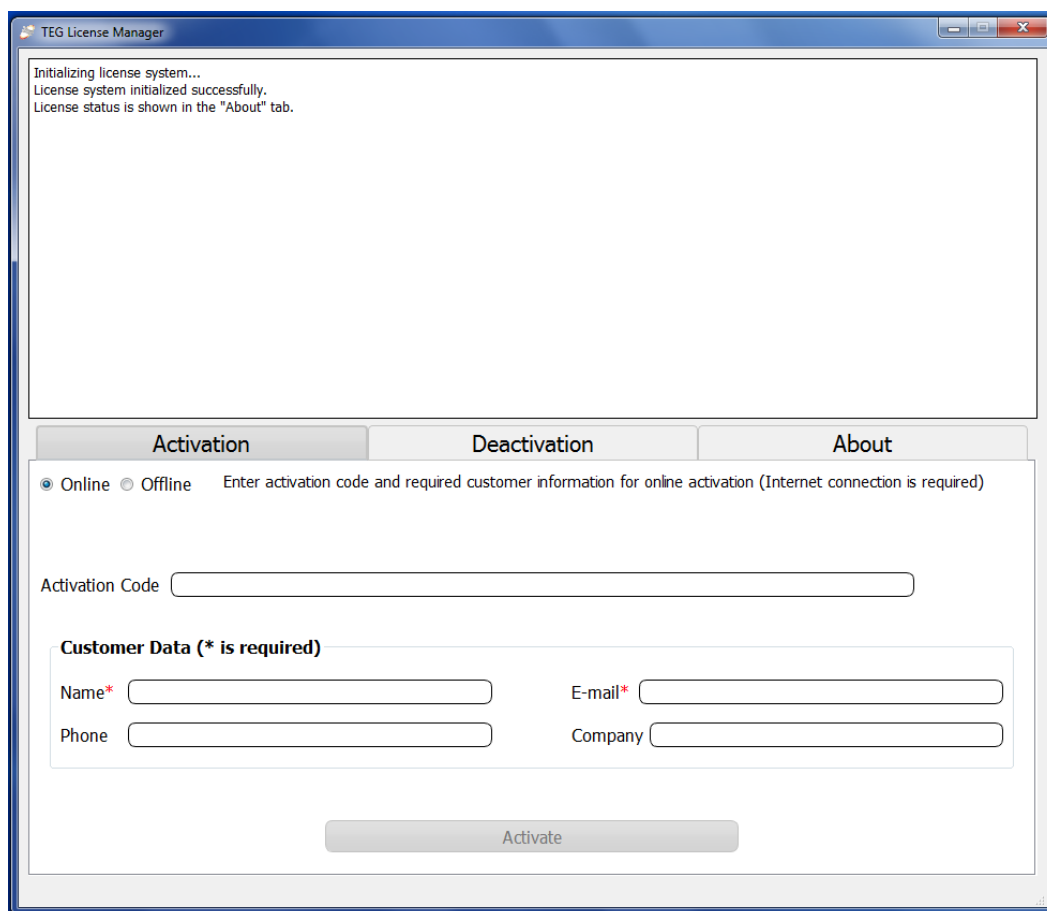

Please follow the instructions below to re-activate your license:

1. Go to your Program Files Folder for the T1DMS software and double-click on **License Manager**:

2. This is the License Manager Screen to re-activate your software:

3. Enter the 16-digit License Number, Your Name and E-mail address. Click on Activation:
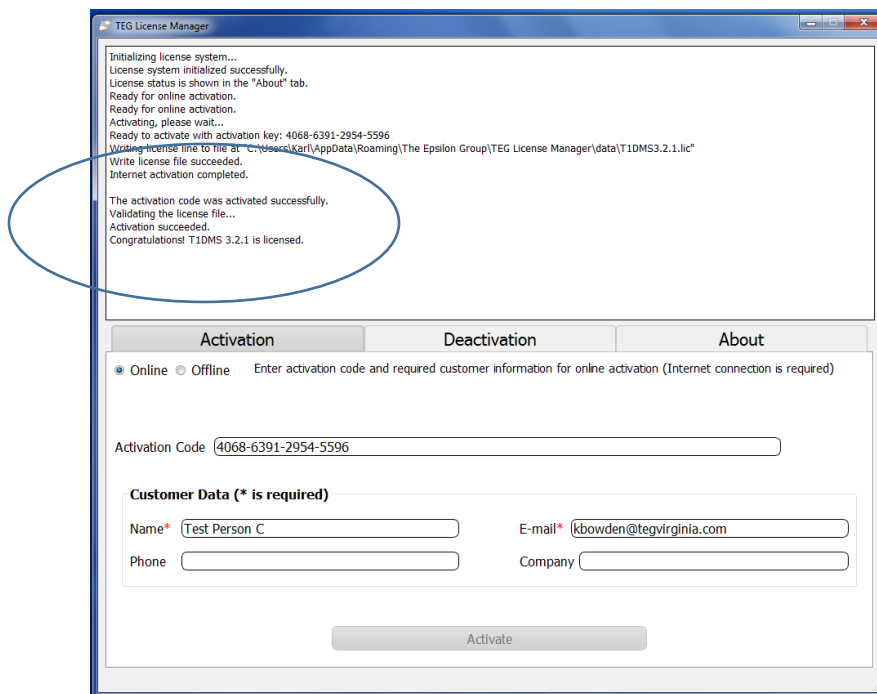

4. Your license is now activated. This screen will notify you (at top of screen) of the activation.
